Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/17/2010 has been entered.

Status of Application

2. Acknowledgement is made of the amendments filed 02/17/2010. Upon entering the amendments, the claims 1-2, 7, 9-14, 18, 20-21, 27-28, 30-31, 33-36, and 43 are amended. The claims 1- 43 are pending and presented for the examination.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Roger Browdy on 05/20/2010.

The application has been amended as follows:

Claim 1, line 5, after "having 39-50" delete "%" and insert - - wt% - - .

Claim 35, line 5, after "having 39-50" delete "%" and insert - - wt% - - .

Art Unit: 1793

Claim 35, line 9, after "liquid at" delete "room temperature" and insert - - 15°C - - .

Claim 36, line 4, after "ink composition" insert - - having 39-50 wt% solids content, - - .

Claim 36, line 4, after "vehicle" insert - - that is liquid at 15°C - - .

Claim 43, line 3, after "composition" insert - - having 39-50 wt% solids content, - -

Claim 43, line 4, after "liquid at" delete "room temperature" and insert - - 15°C - - .

Rejections Withdrawn

4. Claims 1-34 have been amended to overcome the U.S.C. 112 indefiniteness rejections previously issued. The rejections are therefore withdrawn.

Response to Arguments

5. Applicant's arguments are persuasive at showing the distinctness of the amended claims over the prior art applied in the previous office action. The amendments change the claims to fully reflect applicant's inventive ink composition, and applicant's arguments show that the composition of the amended claims would not be obvious from the teachings of the previously applied prior art. Incorporation of the allowable limitations of claim 1 into the three other independent claims renders allowable these claims as well. Therefore, the previously issued grounds of prior art rejection are withdrawn.

Allowable Subject Matter

6. Claims 1-43 are allowed.

Reasons for Allowance

7. The following is an examiner's statement of reasons for allowance: The prior art of record, either alone or in combination, fails to anticipate or render obvious the instantly claimed ink composition or method of printing with said ink composition. Specifically, the prior art fails to teach an ink composition having a solids content of 39-50 wt%, comprising a vehicle being liquid at 15°C, and comprising sub-micron particles of a binding composition

The most relevant prior art references found are Nyssen et al (US 6245138) and Doyle et al (EP 1223201). The difference from instant claims is that the Nyssen ink composition comprises a solids content below the instantly claimed range, and the Doyle ink composition does not comprise a vehicle that is liquid at 15°C. For the above, reasons, the subject matter of the amended instant claims is neither taught nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
